

A New African Cargo Airline Built For Trade

SEPTEMBER 2026 | NEW YORK

THE OPPORTUNITY

Africa Needs More Dependable Air Cargo Capacity

The market gap is not simply distance. It is dependable, right sized capacity that helps critical goods move faster.

Built around trade, not
passenger traffic.

A focused cargo proposition for Nigeria
and underserved sub-Saharan markets.

Demand

IATA reports African
carriers are leading
regional air cargo
demand growth.

Constraint

Critical goods still
depend on slow,
fragmented logistics
in many markets.

Response

Right sized aircraft
and dependable
service designed
around trade flows.

WHY NOW?

Africa's Air Cargo Demand is Growing

IATA data shows strong year on year demand growth across African carriers in 2026.

18.2%

African air cargo demand growth
January 2026, year on year

13.3%

African air cargo demand growth
May 2026, year on year

8.5%

Global air cargo demand growth
June 2026, year on year

Critical Cargo Loses Value When Logistics Lose Time

PROTECT

Agriculture and Perishables

Long journeys and cold chain gaps increase spoilage, reduce farmer income and limit access to higher value markets.

DELIVER

Pharma & Commerce

Medicines, commerce, consumer inputs and equipment need dependable transport to reach communities and production hubs.

POWER

Energy & Industrial Cargo

Urgent spares, components and high value equipment create demand for reliable and responsive air cargo.

THE SOLUTION

Aircacacao is Designed to Make Air Cargo More Useful to Trade

A focused operating model built around dependable capacity, right sized aircraft and underserved routes.

RIGHT SIZED

Aircraft aligned to the cargo opportunity.

NIGERIA FIRST

Launch focus on Nigeria and underserved sub Saharan markets.

TRADE LED

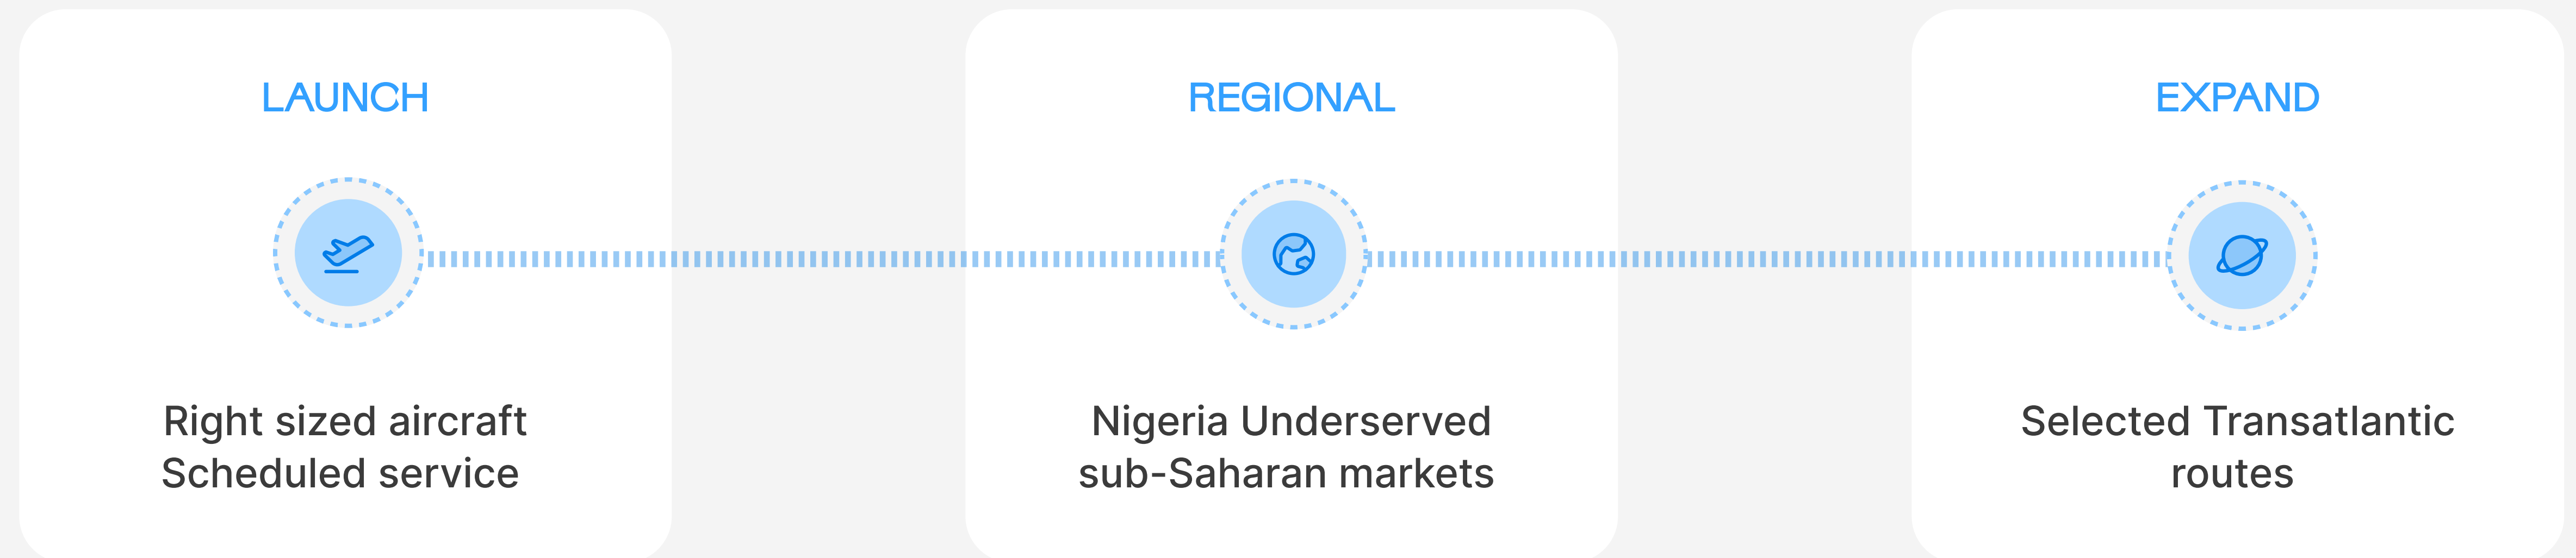

Built around critical goods and supply chains.

TRANSATLANTIC PATH

Progressing over time to selected transatlantic opportunities.

Start Focused. Build Capability. Expand Deliberately.

THE RAISE

US\$6M Seed Capital

To launch a scheduled service

We are seeking aligned partners to help bring dependable cargo capacity to market.

CAPITAL PARTNER

Provide seed capital and strategic support to fund AOC, aircraft entry into service and initial operations.

AVIATION OPERATING PARTNER

Experienced airline operator or aviation group with capability across AOC execution, flight operations, safety management, aircraft sourcing and leasing, crew and training, maintenance, ground operations and cargo operations.

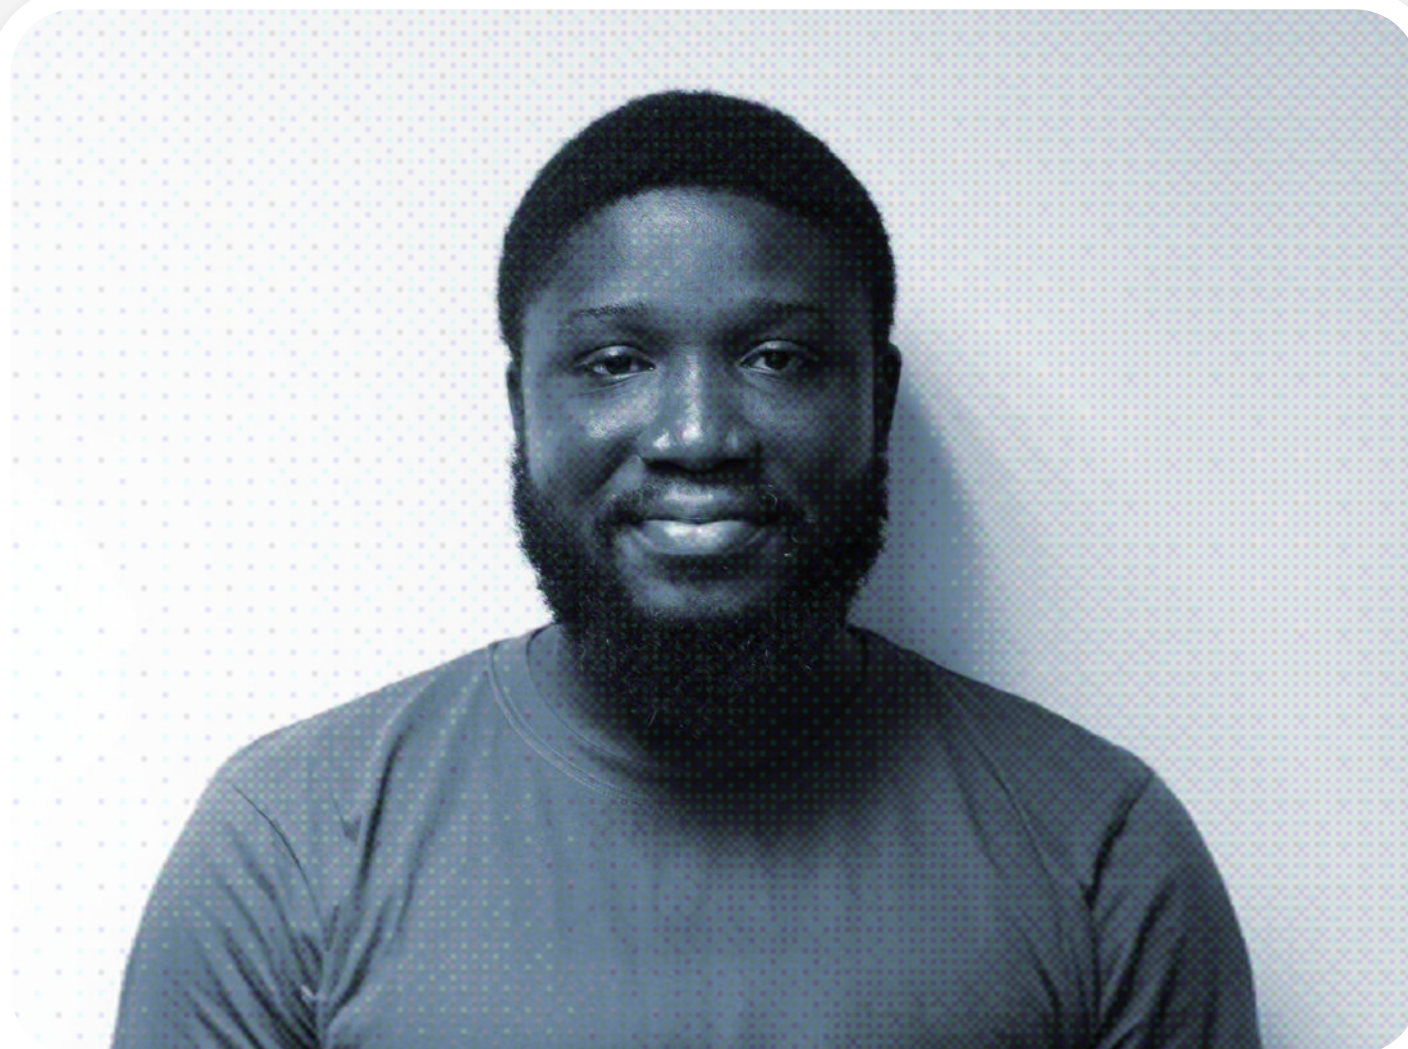

TRADE & CARGO PARTNERS

Cargo owners, freight forwarders, exporters, importers and strategic trade partners. Seeking LOIs, volume commitments, preferred cargo agreements, forwarding partnerships and anchor customers.
